**THE SPIKED COIL MOUNT COVER - LARGE**

Here is a BIG Spike to finish off that bare spot on the frame on the backside of your coil mount.

Matches the other spikes, this features paint protection

film on the backside to protect your paint from abrasion and to keep it from sliding during hard bumps.

But with the 25 lb. magnet, it's not going anywhere !!!

It is the same diameter as the mounting surface shown. Matches Great!!

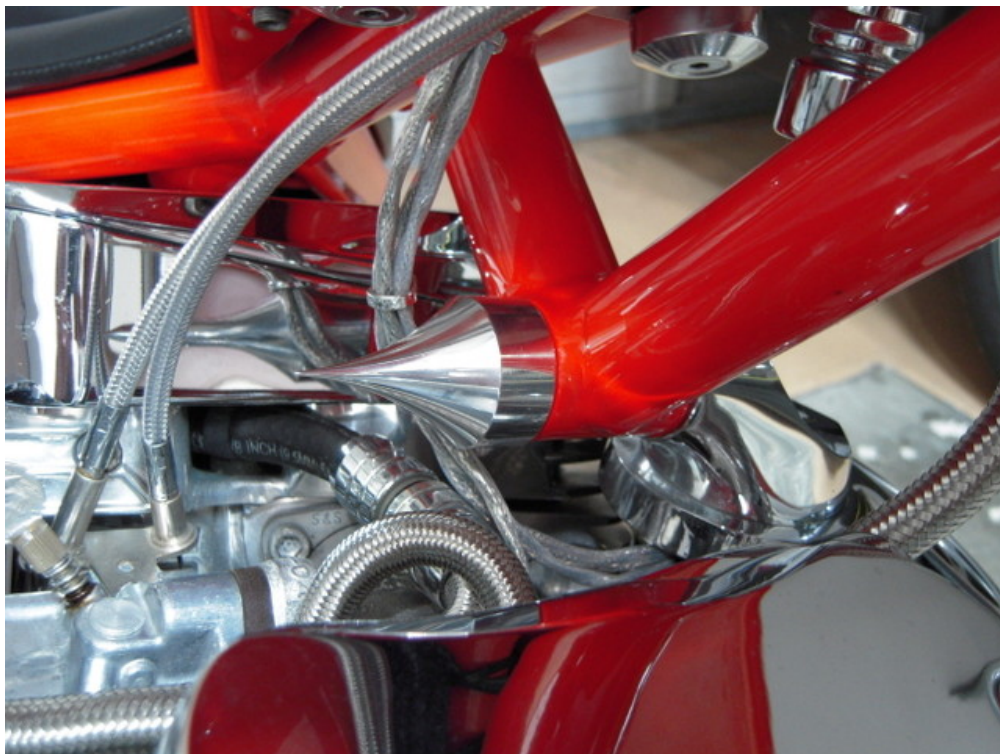

**BE SURE THAT YOUR FRAME MATCHES THIS PICTURE**

**IF THE SURFACE IS SOLID IT FITS**

**IF THE SURFACE IS HOLLOW AND A BOLT SHOWS IT DOESN'T FIT**
